Dear Commissioners:

AZ CORP COMMISSION  
DOCUMENT CONTROL

2005 MAY 11 P 4: 39

RECEIVED

As the appointed intervention representative for Central Trucking Inc. (C.T.I.), I am filing the following statement for the August 2<sup>nd</sup> hearing as directed in the Procedural Order dated February 18<sup>th</sup> 2005.

Since the interim order of January 26<sup>th</sup> 2005 issued by the ACC allowing Unisource Energy to provide power to C.T.I. at 2255 W. Oatman Road, the following has occurred. C.T.I. was able to eliminate the generator which we were using to provide power. Unisource Energy has provided continuous uninterrupted power to C.T.I., Mohave Cooperative has removed all their equipment that was installed on January 24<sup>th</sup> 2005. Mohave Cooperative has also refunded all of C.T.I.'s money, which C.T.I. had paid out to MEC.

C.T.I. has completed building plans and has submitted the plans to Mohave County Planning and Zoning for approval to start construction of its building. C.T.I. has also become a member of the Kingman Chamber of Commerce. C.T.I. has also added 25 new jobs since the interim agreement, and at this writing plans to add another 50 jobs at the time of the completion of the building. C.T.I. has been using all local contractors for its building plans, and is committed to using all local contractors for the construction of its facility, thus creating more jobs in the Kingman area.

After reading the memorandum from Ernest G. Johnson, Director of Utilities Division, dated April 18, 2005, and the staff report, C.T.I. is in complete agreement with the ACC staff's conclusions and recommendations. The ACC staff's findings state that MEC is unable to provide C.T.I. with electric service in a cost effective manner in the near future, and that UNS has and still is providing C.T.I. with electrical service, it makes sense to allow UNS to continue to service C.T.I. on a permanent basis. Thank You

Terrence G. O'Hara
